

VULCAN – MOBILE COMMUNICATION DISPLAY

DURABLE. VERSATILE. INTELLIGENT

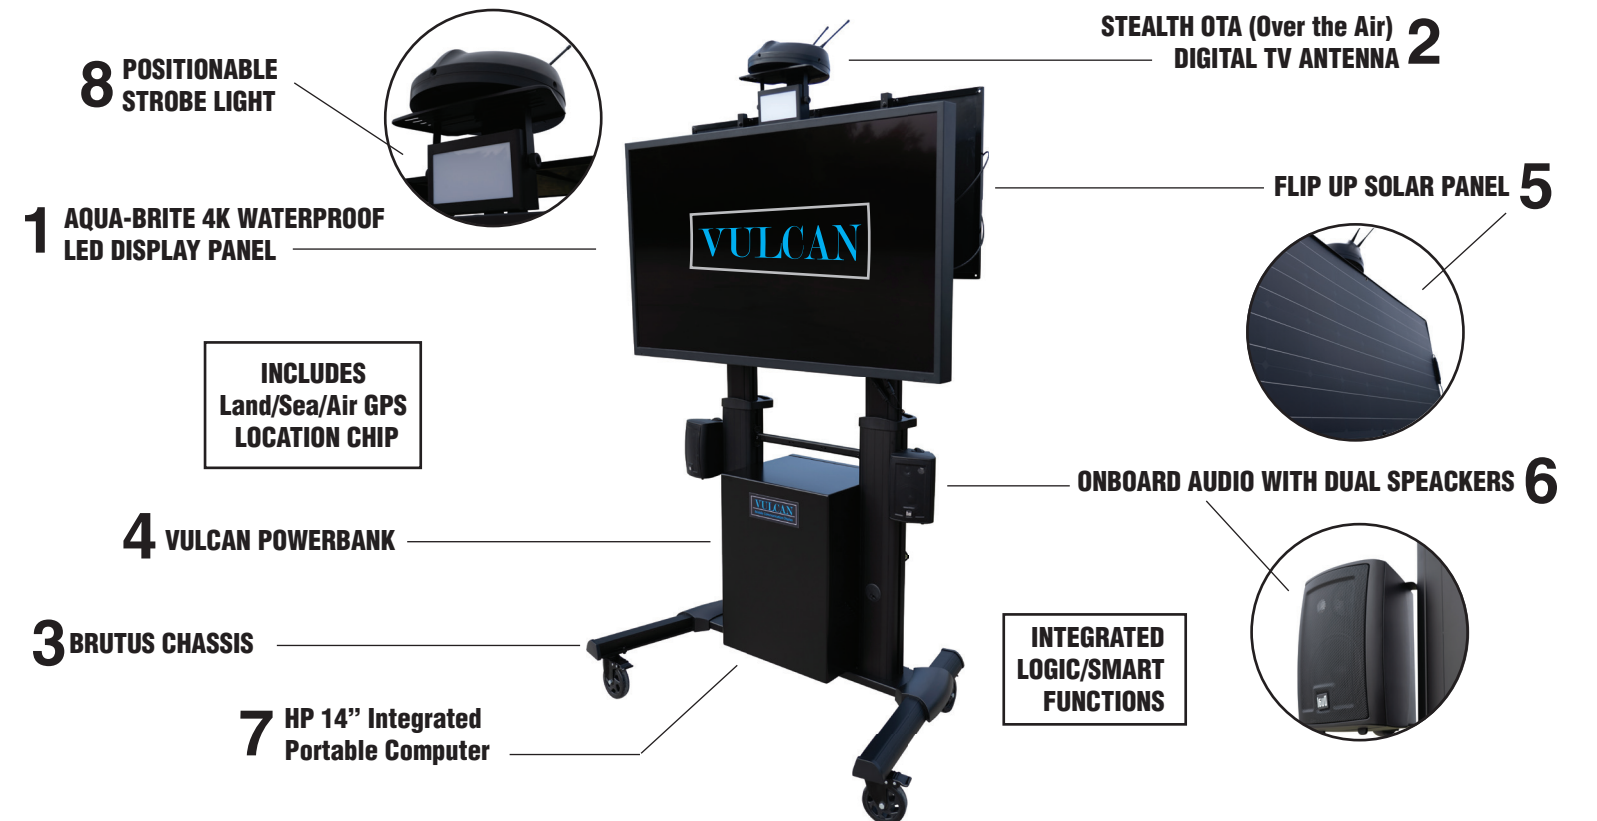

WHAT IT DOES:

(Unlike Anything on the Planet)

- Weatherproof High Resolution 4K Video Display with On-Site and Remote (interactive upload) Programmability for Urgent and Vital Communication Messaging.
- Self-Sustained “Off the Grid” Power via Lithium Iron Phosphate Battery Bank with Solar Regeneration for Continuous 24/7 Operation.
- Computerized Interface featuring Network Connectivity for Email, Bluetooth and Secure User Access.
- Digital Audio with Dual Weatherproof speakers and Wireless Microphone/Headset.
- Live OTA (Over the Air) TV Reception Capability for Updated Local and National Broadcast messages.
- Roll-in-Place Powder coated Aluminum “BRUTUS” Chassis with Full Anchoring and Anti-theft Security Features.
- GEO Synchronous ID for Full-Time Unit Location information and Tracking.
- Multi-Function Strobe/Ambient Light fixture provides alert status mode and directional flood light for nighttime deployment.
- US (Burlington, KY) Assembly with Domestic Customer/Tech Support by Free Signal TV – an Industry Leader in Advanced Electronic Solutions.
